About World Education Group

WEgroup was founded in 2007 by Dr. Richard W. Ferrin, PhD, a former college and university president with over 30 years' experience in the higher education sector.

Our mission is to help US institutions internationalize themselves, by providing international student recruitment services, study abroad programs for domestic students, academic program development and leadership-level

consulting services.

WEgroup was among the first agencies to earn certification from the American International Recruitment Council, which sets standards and best practices for student recruitment. We are currently the only US agency so certified.

We would be very proud to add your school to our family of 30+ university clients!
